

A warm, festive dinner table with wine, food, and people in the background. The scene is filled with holiday cheer, featuring a glass of white wine in the foreground, a glass of red wine being held by a person, and various dishes like bread, nuts, and vegetables. The background shows other diners and a cozy, dimly lit atmosphere.

# Festive Cheer

Celebrate Christmas 2020 in style  
at Holiday Inn® London - Shepperton

# Keeping you and your loved ones safe this Christmas

The safety of our guests and employees is our number one priority and we would like to reassure you that measures are in place to provide a clean, safe and welcoming environment when you come and join us this Christmas. Here is an overview of some of the measures in place:

**New queuing system** - A queuing system has been implemented at reception, with 2 metre floor stickers advising guests where to stand at a safe distance from each other. We have also implemented a strict rule that one individual/family is allowed in the lift at any one time, this is signposted and there are hand sanitising stations outside the lifts.

**Contactless check-in** - Perspex screens have been placed on the reception desk and debit/credit card machines are cleaned every hour.

**Hand sanitising stations** – multiple stations have been placed in all main areas of the hotel for guests to utilise. All high touch points are sanitised after every guest interaction or every hour depending on the usage, including door handles, debit/credit card machines and pens.

**Safety of our guests and employees is our number one priority** - Our employees have been fully equipped with the necessary PPE to keep them and our guests safe. Our employees have also been trained on maintaining a high standard of hygiene including hand sanitising after each interaction with a guest, rigorous cleaning procedures before and after each shift change and regular cleanliness upkeep within high traffic areas of the hotel. They have also been trained on how to handle any suspected cases of COVID-19 within the hotel and how to keep guests safe if this did occur.
